

PROJECT REVIEW:

Big Box Retailer Utilizes Retrofit LED Lamp to Improve Light Quality

Foreverlamp provided an easy to install solution that met the project criteria, resulted in a fast ROI, and delivered a very high quality light that is energy efficient and long lasting at 50,000 + hours.

THE SITUATION:

One of the nation's largest big box retail chains known for its sustainable operations sought to improve overall occupant comfort while improving efficiency in their existing stores. They needed a solution that maintained the look and feel of their existing 400W metal halide lighting solution while improving the lighting quality and efficiency of the lighting system.

City	Nationwide
Country	USA/Canada/Mexico
Total # of Stores	200 US Locations
Units Per Location	500+
Category	Retail
Type	400 W MH

THE SOLUTION:

Foreverlamp provided the solution with the industry's first 24,000 lumen plug and play retrofit lamp for Metal Halide lamps. Foreverlamp solved the technical challenge of creating up-light with a directional LED source by creating enough up light to avoid the cave effect of other LED screw in lamps. The Foreverlamp plug and play bulb was able to deliver a technologically advanced solution to reduce energy and operating costs, improve ambiance and the look of merchandise, while reducing the stores environmental footprint.
